DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 14, 27 and 32 are unclear, as preamble does not include whether the claimed method or system are automatic, semi-automatic or computerized, the applicant to include computer method or computer system to make the claims clear. Claims 2-13, 15-26, 28-31 and 33-36 are included in this rejection because of their dependency.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

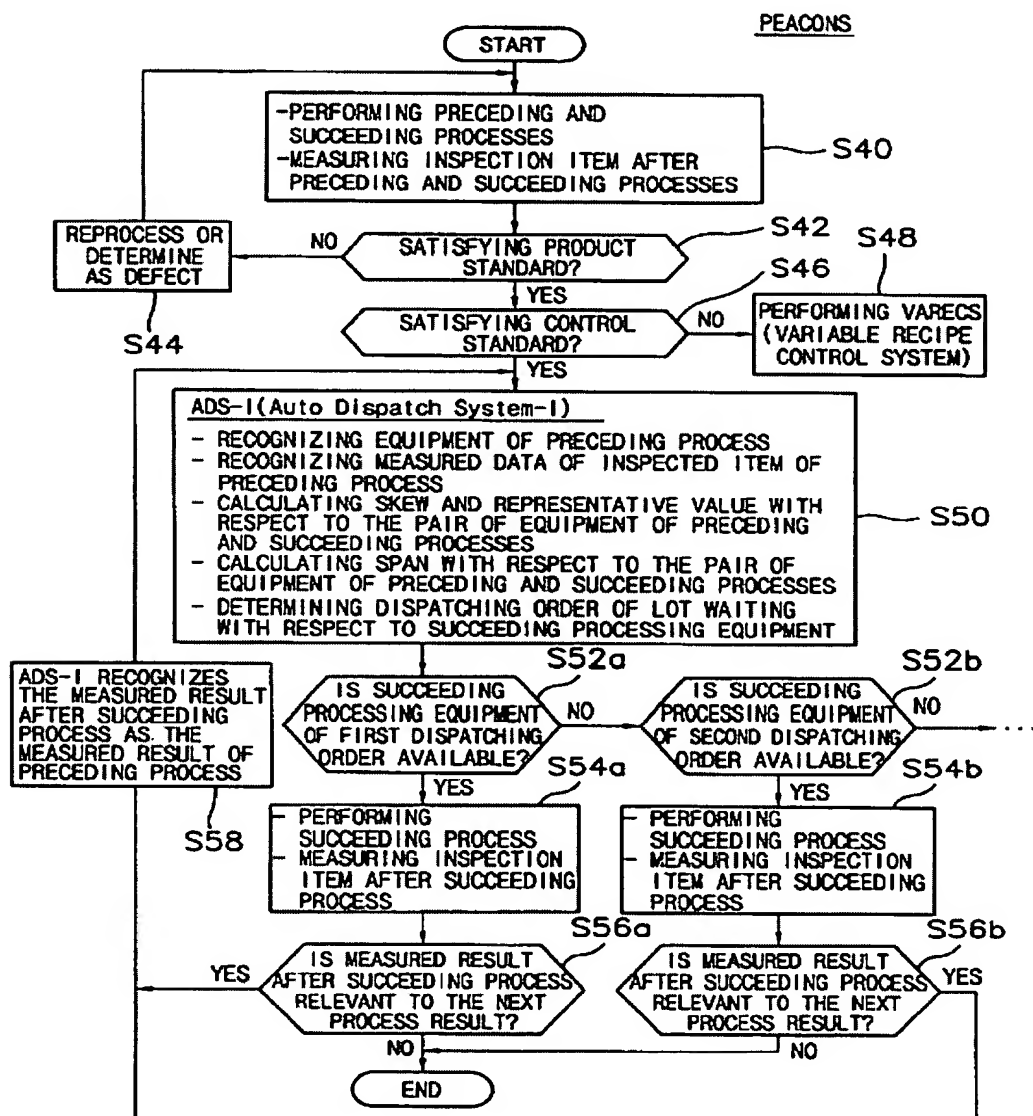

4. Claims 27-31 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Cho et al. (US 6,604,012).

Cho discloses all the elements for a dispatch method, including a selecting one of equipment tools preceding (200), a target equipment (300), and tool (100a) to designate and forward lot (batch) from 200 to 300. Cho also discloses of having an

Art Unit: 2125

auto dispatch system (S50). It would have been obvious to one of ordinary skill in the art to modify the auto dispatch system of Cho to include, any additional or to delete unnecessary steps to improve production.

FIG. 3

Allowable Subject Matter

5. Claims 1-26, and 32-36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wolfson, Okumura et al., Yang et al., Kuo et al., and Miyasaka disclose related art.
